## City Water Billing To Change

By Rod Denley

Local residents will have to get their water bills paid sooner now since the City Council Monday night discussed a motion to have the due date for water bills to be set at the tenth of the month following billing. Water billing procedures have

occupied the time of council for the past few meetings after a local resident, Arthur Thayer, attended a council meeting to object to a \$4.75 charge he had been assessed for not paying his water bill on time.

Originally the water bills had been due on the 10th day after billing, councilman Bob Gornick had reminded Thayer at the second last meeting. Gornick also reminded Thayer that at his request council had allowed an extra ten days for bills to be paid.

## At Harrison Sept. 9th

# Vikings Gear For Season Opener

by Joe Schrader

It started out on August 15th. That's the day this year's Grayling Varsity and JV football teams formed for the first time. According to Head Coach Bill Klinger, both teams have practiced hard and long ever since. We'll find out what kind of a job Klinger has done, helped out by Assistant Coaches Fred Wolcott and Don Ferguson, when the team takes the field against Harrison in an away game on September 9th. The following week, on the 16th, the Vikes will take on the Roscommon Bucks, also in an away contest.

The Vikes hope to improve on last year's overall 4-5 record, the first year Coach Klinger handled the squad, and are looking toward the first place position in the MHS-conference, in which they posted a 2-4 mark last year.

"Our strong point," says Klinger, "is our overall team speed. We have an improved passing game which will probably be handled by sophomore Rocky Tobin at quarterback." The Coach also listed the following players as potential offensive backfield candidates - Chris Austin, Senior and Skip Olsen, Junior. Also mentioned on the offensive unit were Bill O'Mara, John Herrick, Cliff Wheeler and Chip Nicholas, all Seniors, and Tim Bitnor, a Junior.

"It's encouraging," commented Klinger, "that during the past 2½ weeks of practice, our attendance has been almost 100%. This includes about 80 boys on both the Varsity and JV squads."

Both teams have been practicing hard. [See Vikings on page 2]

**TAKING A BREATH** during a practice break include, left to right, Sherm Holey, tailback; Curt Hanson, fullback; Rocky Tobin, quarterback; Chris Ostrander, center; Chris Austin, quarterback; Mark Gornick, fullback and Chip Nicholas, tailback. (Photos by Joe Schrader)

**WORKING HARD** to get this year's Viking squad into playing shape include (left to right) Fred Wolcott, Head Coach Bill Klinger and Don Ferguson.

# Defeat School Millage

By Rod Denley

The Crawford AuSable School Board has missed in their second chance to get a millage proposal passed for this school district.

Schools will open as scheduled but may not remain open for long if the next millage proposal is also defeated.

The third election will be the critical one according to school officials and a miss on that one will mean no operating money for the rest of the year.

The millage was defeated by a total of 233 votes with 2247 voters casting ballots in the election. In the final tabulation there were 1007 'yes' votes and 1240 'no' votes.

Voting by precincts indicated that the 9.65 millage proposal for five years was defeated in every area of the school district. In Frederic, of 301 voters, 104 were for and 197 against. In Lovells there were 51 for and 101 against. And, in Grayling, there were 852 in favor of the proposal and 942 in opposition.

In Grayling the die was cast and school officials adding up the vote totals knew early in the evening that the proposal was shot down for a second time. Over 50 teachers, their spouses and other persons had gathered at the board office to add up the results as they came in on the phone.

"I knew that the millage would be defeated within 45 minutes after the polls closed and the Grayling total came in," said Fraser Dean, school superintendent. He also expressed his disappointment about the defeat.

"The schools will be opening but I don't know where we will be going from here. The board will be having a special meeting on September 6th at which time we hope there will be some officials here from Lansing to lay out what the alternatives are [See Millage on page 5]

## Hospital Aux. Flower Tag Day

ticing hard two times a day since mid-August. The Varsity unit will get its first test later this week in scrimmage contests against Coleman and Gladwin. The JV's will take on Gladwin, also in a pre-season encounter. Coach Klinger describes his defensive unit as "being pretty much the same size as last year, except that our quickness has improved". Expected to start on the defensive unit this year are Mark Guinick, senior, linebacker; Doug Dielert, senior, tackle; Curt Hanson, junior, guard; Mike Allen, senior, tackle; Tom Wiedeman, senior, tackle.

"To be successful this year," said Klinger, "our defense must be stiff; they can do it, I'm confident of that, and when they're tough our offense will have the opportunity to move the ball." According to the coaching staff, other Varsity possibilities include Chris Ostrander, Dean Smith, Jamie Cox, Gary Hoag, Chuck Golinick, Kent Lamont, Dale Metzger, Drake McClelland, Louie Middleton, Mickey Roach, Joe St. John, Joe Wieland and Mark Kibbe.

Win, lose or draw (and that's possible too, fans!), it looks like there's an exciting year of football in store for all Viking fans throughout this year's Fall season.

## Editor's Mailbox

To whom this may concern:

I thank the understanding citizens in this county who voted "Yes" in the recently proposed millages. To those who voted "No" ... why? The money? The money that will have helped the people to bring progress in the future. The money that would have helped the people who will someday have to govern this vast land. Money is not everything. I admit that our school system is not the best in Michigan, but it was not meant to be. Your support is needed to educate everyone that is here.

You say you don't have children in school? You went to school. You had sports, activities, etc. Shouldn't we? Things of this character help to keep up the moral.

I have heard comments about kids not learning to read or write. Do you offer your services as a parent? Some use love and understanding. Some parents help their kids by studying with them to assist them in many ways. Some think school is for keeping kids out of their way. School is to learn, make friends, to prepare for life and its challenges.

There are students who could care less, but you can't expect some sort of heaven where nothing goes wrong. As I stated before, "Some really don't care", but I happen to be a 4.0 student speaking up for every student that sets a foot into a Crawford-AuSable School.

No one told me to do this. I simply feel that if this state and country is going to deteriorate, it won't happen in my lifetime.

When I heard about the 2nd defeat I was filled with sadness. Not for me, but for those citizens who think so low of the people (that's right, we are people), who will help them to push forward into the fullness of time. I care about you even though I don't know you; I care about you even if you don't care. I care because I'm me and I want to live in a world united and to put in more than my share. I can put in more by thinking of those who were too selfish to participate themselves.

God bless you because he is the only one who will.

Stephanie Fick  
Sophomore

To The Editor:

Dear Sir:  
I don't know if you will print this because I am only 12 years old.

I don't know why people have to vote against the millage. They had a good education, why can't they? Voting against the millage isn't going to help anything.

If it doesn't pass, we may have to go to other areas of schools. Why can't they go to Lansing and tell the people who can do something about their taxes?

I hope when there's another millage election people will think about our education and try to pass it instead of defeating it.

Sincerely,  
Doug Clark

## From Our Corner...

Everyone knows the old saying — "no news, is good news" ... Well, as we ponder our corner Monday night, more and more it's beginning to look like our readers will be getting good news.

It has been one of those Mondays when we should have stayed in bed ... as we look back to this morning — there hasn't been one thing that has gone right for us.

So ... we will touch on a few side-bars to help fill up our space, which in essence will help us keep our job for a while longer ... this way Mr. Milliman and Mr. MacVay (members of the board) will notice we are diligently working — and not goofing off.

A sad side-bar — when we returned home Sunday evening we picked up our favorite Times and found an article about Hartwick Pines — the problem was the headline, "Majestic Hartwick Pines Slowly Dying Out." Seems like the only kind of ink Grayling receives anymore is bad. If it's not the DNR, reflecting about the canoeing, and fishing problems on the AuSable and now and then tossing in the removal of the dam ... Bear Mt. met its demise, which seemed to satisfy a few ... the possible moving of Bear Archery also seems to be the product of satisfying a few ... now we read where the days of the majestic pines are numbered.

As we think about it, more and more it seems like there is a fight to see who, or which group will have the prestigious place of writing the epitaph for Crawford County.

And then along came Sam ... the few numbered 233, and placed their first inscription Monday at the polls.

We have no children in school — we probably could say we care less what happens to the school system, but then, why tell a fib — we do care — and right now we feel befuddled over the outcome.

Our return Sunday evening was from Traverse City, so we won't have to mention we spent the weekend with T.J. and Stefany, and their puppy, plus, we can end our corner on a happy side-bar.

We should add this, following a phone call Monday from Florida. Yes, Gayle, everyone misses you, except me.

Capone Golfers Fighting It Out. With the crack of the drivers and the rattle of irons the battle on the Grayling golf course raged fiercely Sunday afternoon. It was the first inter gang war staged in the local golf underworld and after 18 holes an armistice was declared until next Sunday when the battle will continue among the surviving members.

At 2 o'clock the gang gathered at the dug-out and proceeded to pair up for action. No. 1 foursome consisted of "Dug-out Dago" Laurant, "Spoony Spike" MacNeven, "Lucky T" Hanson and "Blonde Doc" Green. At the finish of the first 9 holes, "Spoony Spike" was a loser and had to caddy for

"Dug-out Dago" for the second nine holes, and "Blonde Doc" did the bag-toting for "Lucky T".

Next Sunday the semi-finals and finals will take place. Battle will be called at 2 p.m. sharp.

Miss Elna Mae Sorenson is enjoying a vacation visiting in Cadillac before school starts.

Miss Donna Lockhoff of Mancelona, who has been the guest of Miss Ingeborg Hanson for a few days, is leaving today for Flint where she teaches in the public schools. Miss Lockhoff is a former well known teacher of Grayling Schools.

Mr. and Mrs. Egge Bugby are entertaining as their guests this week, Mrs. Monroe Porter of Flint and her son, Eugene.

Genuine surprises are rare, but Mrs. Ernest Borchers had a most pleasant one

when on Monday night she came home to find a number of her lady friends to help her celebrate her birthday anniversary. Mrs. Borchers and children are spending the week down the river at the home of her parents, Mr. and Mrs. George K. Stephan, and her sisters invited her to come in to the show and in doing so made an excuse to go to her home. Cards and a delicious pot luck lunch were enjoyed during the evening.

Mrs. Peter Robertson is this afternoon, entertaining the Danish Reading Club. The affair is being held at the Kjolhede cottage at Lake Margrethe to honor Mrs. Kjolhede, who with the Reverend are to leave Grayling about the 1st of October.

The railroad bridge over the East Branch on the Lewiston branch was burned out Saturday night so the excursion train on Sunday morning was obliged to return here. It was a small structure and the trains are now running.

School opened Monday with an enrollment of 356 pupils. The terrible weather and the fact that a number are yet away on their vacation accounts for the smaller number, but all will be there and more than last year.

## The Bible Speaks

From Calvary Baptist Church

### Atheism A Religion?

A terrible injustice is being done to all religious freedom by recognizing Atheism as a religion. Atheism is not a religion, but is anti-religion. Theism is the belief in the existence of a god or gods. Atheism is the denial of the existence of a god or gods. The primary meaning of religion is "the service and worship of God or the supernatural." All forms of theism such as Jewish, Catholic or Protestant faiths are forms of religion. Atheism is a denial of all faiths, gods, religious principles and practices, therefore it is not a religion. Atheism is the opposite of religion; the enemy of all religion.

Atheism is trying to destroy all religion within our nation under the banner of religious freedom. They have already stopped prayer and Bible study in our schools. They have announced plans to secure previous gains and push for more limitation of religious expression.

The New York Times reports: "Dr. O'Hair said the American atheist group also planned to file suit to compel the Department of Health, Education and Welfare to enforce a strict ban on prayer in school and to withhold Federal funds for what she called 'continuing violations of state church separation in the public school systems of the United States,' including any prayers that might be offered at parent-teacher asso-

## Youth Services Road 'N River Rap

A great deal of planning has gone into Youth Services Environmental Program. Federal monies, local monies and tremendous amount of local effort have all contributed to the creation of this friendly monster. The best part is that we all benefit.

Perhaps the most satisfying feature of our program is "potentially unemployed young people" solved a "potentially serious environmental problem" — litter.

Youth Services recently became involved in a Muscular Dystrophy drive with AuSable Manistee Realty. For each bag of garbage Youth Services placed in front of the real estate office, one dollar was contributed to Muscular Dystrophy and one dollar to Youth Services. It was an excellent suggestion by George Dice and we were pleased to help raise money for Muscular Dystrophy and Youth Services.

Another very bright spot in the last week was lunch at McDonald's. Mr. Sutherland provided all Youth Services Environmental participants with a free lunch on Ronald McDonald. We were all very impressed with Mr. Sutherland's concern and sensitivity regarding our local environment. All 85 of us would like to thank him for the great lunch.

With autumn's fine color tour and hunting adventures nearly upon us, sometime in mid-September our environmental program will end. Once Labor Day passes, our roads and rivers will experience a break in summer recreational action and so will our work crews. It's been a very busy summer.

Youth Services will be having new programs for the fall, both counseling and employment. For further information, please contact Youth Services at 348-7702.

## Millage

(Continued from page 1)

for the system. I know the state is not going to let us close the schools without another election."

The hard decisions must be made by the board, he said, who have to decide what amount of millage to go for and at the same time decide what sort of effect that will have on the quality of the education in the community, he said.

Dean says there is presently enough money in the budget to theoretically operate the school for another six months if just expenses are met. "However, the crunch comes when you have to figure in the cost of maintenance for the buildings during the winter and also meeting the cost of paying unemployment insurance for the teachers and other staff if the board is forced to lay them off."

"According to the Michigan Employment Securities Commission (MESC) we will have to have about \$500,000 in the budget to meet our obligations. These are MESC figures that they supplied to us and not figures computed by this office."

In order to keep that much money in the budget to meet these requirements, we will be forced to close the schools in early November if another millage proposal is not passed.

Dean says the next possible date for an election will fall between the 17th of October and November 8th. "In the meantime we will just keep operating on the money we have left."

"All tenure teachers will be receiving lay-off notices and all probationary teachers will also be notified," said Dean.

A strong campaign waged by the taxpayers association was instrumental in the defeat of the millage. A newspaper, radio, and CB campaign by the Concerned Citizens for Fair Taxation urged voters to vote against the proposal as a demonstration to the State of the inequality of the present tax system. Educators however said on Monday night that they felt that Crawford County meant nothing to the state who would not assist Detroit after millages there were defeated, and numerous programs were cut. "They have never even heard of Crawford County in Lansing," said one teacher.

Kent Reynolds, principal of the high school here shook his head in disgust and said, "There are going to be a lot of disappointed kids in this community. We have just spent hours and hours in scheduling classes, and now we will have to do the whole thing over. This will really hurt the poorer students as well as the kids at the higher academic levels."

"What this means in the long run is really dependent on what the board decides to do about the issue. If there are reductions this will surely mean larger class sizes and this is what hurts the best and poor students. The poor students suffer because in a class of 45 kids, a teacher simply cannot spend extra time in helping a poor student pull up their grades. The best students as well will not be able to get advanced classes to hold their interest and prepare them for college. It has taken years to get teachers to the point of putting in the extra time with both these types of students. Now the community is in effect saying to them that they could care less about their extra effort and it will take a lot to convince any teacher to put out the extra effort."

Reynolds also said, "The big decision is now in the hands of the board and they have an agonizing decision to make during the next few weeks."

motion which will return the effective billing date to the 10th of the month instead of the 20th. Golnick made the motion and also stressed that the late penalty charge should remain the same as it is now. Morford told council that he would check on the wording of the penalty clause to ensure that it read exactly as it was presented on the water bill. Morford also said the new due date will come into effect on the January billing in 1978.

Morford also told council that work is proceeding on new construction of the city water system which he said was now being checked out for any possible contamination before being hooked into the present system.

—in other business, council approved the sale of the old police car and water tanker as well as two heaters by bids they had received.

—gave Morford the go ahead to get some city street signs up for the industrial park and explore the possibility of large signs to advertise the park.

—discussed the leasing of space in the City Hall for the Kirtland Community College aviation classes while construction of their new facility is completed.

—and reminded city residents that the election for two members of council will be held on Nov. 8 of this year and said petitions for that election must be filed by Oct. 15th.

brother's wedding. She spent 10  
days with her parents. Mr. and  
Mrs. Don Jansen before they

Mr. and Mrs. George Granger  
spent a week in August at their  
cabin at Bell Lake, Ontario. Mr.  
and Mrs. Ben Bachman of Green  
Bay Wis., came from Detroit  
and stayed overnight with the  
Grangers, and then accompa-  
nied them to Canada for the  
week.

In a heated summer long  
rivalry, fanned by the flames of  
a hot July, Jolly Redskin Canoe  
Livery met headlong with its  
arch rivals, Borchers Canoe  
Livery and Carlisle's Canoe  
Livery on Sunday, August 28,  
1977, and came out the victor in  
the "football game of the sea-  
son". Carlisle's captain took a  
beating when downed by his  
son who played on the oppos-  
ing team. "Almost" injured was  
pass receiver, Tom Gardiner,  
when he collided with the goal  
post, alias the basketball back-  
board. In pre-game festivities, J  
R ball-handler Steve Dean, was  
thoroughly doused by Rene  
Trudgeon and Mickey Lovely  
when his water supply was cut  
off by agile Carrie Trudgeon  
who pulled a sneak play and  
kinked his hose! (J R team  
captain Joe Wakoley was "out to  
lunch").

**SIGNS FOR AUSAGRA ACRES BY ROTARIANS**—In an effort to aid emergency vehicles in identifying the individual housing units at Ausagra Acres, the Grayling Rotary Club made possible the installation of numbered signs indicating the apartments in each building. Shown above are Dave Vogler (left) and John Naour who installed the signs. The signs are routed and clearly numbered, and were done by Pete Stephan, of Stephan's Routed Signs. In all, there were approximately 60 signs installed.

The Rotary Club of Grayling stands ready to aid in any worthwhile community projects, and we appreciate the support shown by the townspeople for our fund raising events. Look for announcements coming soon on the Annual Rotary Minstrel Show to be held in October.

## Bits O' Talk

by Fay Bovee

Mr. Gordon L. McCombs, of 45 Ausagra Acres, was pleasantly surprised by a party given for him honoring his 60th birthday on August 23rd. Attending besides his wife were his mother, Mrs. Mary O'Brien, age 79, of Oxford, Miss., and his brother and sister-in-law, Mr. and Mrs. Glenford McCombs also of Oxford. Among some of the Grayling people who stopped by were Mrs. Florence Johnson and Lois Lash. They celebrated with cake and ice cream and then went to the Center where the Kitchen Band played and sang "Happy Birthday" to him. Among the many nice gifts he received was a special one from his wife. She presented him with a lovely picture of herself.

Mr. and Mrs. Warren Reed of Millington were weekend guests of her sister and husband, Mr. and Mrs. Tom Welsh. Other weekend guests at the Welsh home were their son and wife, Mr. and Mrs. Thomas Welsh II of Bridgeport.

Mr. and Mrs. George Granger, Jr. and their granddaughter, Amy Granger of Cadillac spent Saturday with his father and wife. On Sunday, a granddaughter of George, Sr., came from Big Rapids to spend the day.

Mr. and Mrs. Steve Stephan of Cadillac spent the weekend at their home on the main-stream.

Along with the fiscal year end will also end the term of office of some of the members of the Board of Directors. Terms for the following Board Members expire August 31: President Gloria Kraus, who was elected to the Board in 1974; Mrs. Kraus is the owner of the Village Shop in the mall; Ralph Sanders of the AuSable Motel; Duane Nimke, Assistant Administrator of Mercy Hospital; who was appointed to finish the term of Gordon "Sandy" Thompson who resigned last year. Mr. Nimke is now entitled to stand for election in his own right. Bill Kelly of the Scrub Board Laundromat was appointed to finish the term of William Millard who also resigned last year. Mr. Kelly is also entitled to run on his own for a three year term, as are the others. The Nominating Committee has added more Candidates to the Ballot including Marion Joseph of the Grayling Mercantile & Yardstick, Nelson Miles, Attorney at Law; Luke Petrosky of the Comfort Center in the Mall; Richard Schlehuber, General Manager of Grayling Industries; and Doug Wilson of Black and White Foodland.

The top vote getters will fill the 4 vacancies on the Board for a term of 3 years, expiring on August 31, 1980. Ballots have been mailed to all members of the Chamber in good standing and are expected to be returned to the Chamber office at the close of business on August 31, 1977.

Each member is entitled to one vote for each unit of membership, some companies holding multiple units. The staff reports that ballots be returned as soon as possible so that results can be tallied. Membership investment in the Chamber is computed at \$75.00 for the first unit and \$50.00 for every unit thereafter on an annual basis. The Chamber also makes available Associate Memberships for those not in business, such as Ministers, Teachers, Retirees, and individual professional managers. Associate Membership investment is \$15.00 annually.

The Board of Directors urge all business, professional and industrial establishments to support the goals of the Chamber of Commerce, who represents the business community in a collective effort to improve the way of life in the Grayling Region and all of Crawford County.

## Sweet Adelines Activities

The Mid-Mitten Chapter held its rehearsal August 24th with Assistant Directors Paula Fuller and Jan Lorion teaching some show songs in the absence of Director John. Two little sons birthdays required daddy to be home to help blow out the candles.

We have chosen our Specialty Act for our Show and things are really rolling in preparation. The theme is "Welcome To Our World" and you won't want to miss it.

We are most happy to welcome another new member, Sandy Britton, to our chapter. We are so glad to have Sandy a part of us. Visitors to rehearsal were Phyllis DeLong, Louise Bartig and Darlene Michaels. Former member visitors, whom we hope will rejoin us, were Barbara Cratin and Marge Len. Marge is now employed in a Clinic at Grayling which means she will now be able to join us on singouts. We hope Marge and Barbara will join us soon ... we need you.

With so many girls visiting us and joining us ... you girls out there who like to sing, now is the time to visit us and see if you are missing out on something you would really enjoy.

## Two Cents Worth....

By Rod Denley

A lot of people I know scoff at the thought of a miracle ever happening. They may grudgingly accept the fact that the Lord performed them while he was walking this earth but those sceptics always seem reluctant to accept the possibility of anything like that ever happening in this day and age.

What always staggers me is the people who cannot accept any sort of miracle at all. I just have to look at my hand and open and close it a few times to see a miracle of the handiwork of God; or look at a growing tree, a flowing river, or the clouds floating through the sky to see creation that can only be described as miraculous.

This column isn't about the sort of miracles the Lord performed, but it is about a sort of minor miracle that happened last week.

I guess we take it for granted, even though miraculous things are around us every day, and go looking for a major sort of miracle as some sort of proof that the Lord touches our lives.

Well last Thursday night my wife and I didn't go through a miracle but we did get a nice life to our faith. We planted a garden this spring, hopefully one that would provide us with some winter food as well as some fresh produce throughout the summer.

So our good neighbor ploughed us a plot and we raked enough stones to start a Pet Rock zoo. I considered putting up a sign ... Pet Rocks, Pick Your Own for Free. Huckleberry Finn would have charged a dollar apiece and cleaned up his garden and lined his pocket. I was too bashful.

Anyway, we dragged off the rocks, planted a slew of tomatoes, peppers and other seeds and watched the temperatures climb as our pump ran dry. Pretty soon we were replanting after the frost hit and killed most of our plants. Then, when that calamity passed, we were hauling water from the river in barrels to keep up with the drought.

Eventually the water system was working. Well-drillers have too many customers in the summer and not enough in the winter it seems. So the garden went along pretty well and we knew if we could get through the August frost we would probably get a good crop. Well we were not planning on three frosts in August.

The last one came last Wednesday night and all that day it had been cold. The weatherman assured us that the lows would be in the 40's. That is what he said the week before when the second frost killed a lot of our squash and cucumbers. So this time we went out and covered as much as we could and set the alarm for 5 a.m.

At 5:30 that morning the thermometer registered 20°F and my wife and I were looking at a beautiful display of Northern Lights. We wondered what would survive from our frozen garden. There was thick frost on the car windshields and heavy frost on all the plants, while the covers over the other plants were frozen as stiff as winter wash on an outside line.

We were pretty depressed since we thought at least half of it, if not more, was frozen so badly it would never be salvaged. So we sprinkled the whole thing with the hose before the sun came up.

We sat in the house and tried to understand why we even tried. It seemed so futile to do all that work and come so far and then to lose the whole thing to frost. We were pretty down, but we sat there and prayed about it. We prayed mostly for the understanding of why it happened more than to save the garden. We got lots of good exercise and food already. Neither of us minded losing the garden as long as we could understand why. Leaving it at that we went to bed.

Well, we woke up and went out and looked at it in the daylight and it did not look much better. Leaves were hanging limp, and we figured that this second frost would turn the whole thing black.

That afternoon we could not believe it. You could tell the frost had been there, but not one plant was dead. Not one plant or flower or anything.

We just shook our heads and prayed once more. This time it was a prayer of thanks ... Not only for the garden but for the renewal and increase of our faith. Have a fine week.

## Walkout

Public employe strikes  
don't hurt management,  
they hurt the public

Richard Millman

You'd stand there looking at this place burning and then look the other way and see firemen sitting there — it didn't give you a very good feeling...

During the recent strike by Dayton, Ohio firemen, the work stoppage only lasted from Monday through Wednesday, and even from a distance, it certainly didn't provide a very good feeling.

The comment quoted above was from Mrs. Grace Grether, 67, a widow, who stood in the street and watched the four-unit apartment building she owned go up in flames. As long as human life was not endangered, striking Dayton firemen refused to act, some reports indicated they even harassed firemen from neighboring governments who tried to help.

But the strike worked. Firemen got what they wanted ... a shorter work week, a pay raise, another day off each year, and amnesty for strike activity.

Meanwhile, in Detroit a few weeks later, registered nurses at a city-owned hospital developed a simultaneous case of hospital flu. They stayed off the job in unison, in an organized sick-out, until hospital officials agreed to intensify bargaining attempts.

"I think the point was made," said Mrs. Ella Bagley, the nurses' union president. "We're serious about getting a meaningful contract and we do have a method now — job walk-outs — if necessary."

The two incidents — the firemen's strike in Dayton and the nurses' walk-out in Detroit — illustrate the unfairness of the collective bargaining equation in the public employment realm.

How can the city of Dayton hold out against striking firemen? It can't. How can a public hospital hold out against absent nurses? It can't either.

The equation is unfair. All the advantages are on the side of the public employe union. Negotiating a contract on behalf of organized public employes has got to be one of the softest touches around. It's like shooting fish in a barrel.

In collective bargaining, the sides are supposed to be relatively matched. The employe, if they choose, can join a union and hammer out pay and working conditions with their employer. The ultimate weapon in the hands of the

employe ... indeed, perhaps the only truly effective weapon ... is to withhold the employe services; that is, to strike, or walk out.

The employer, on the other hand, also has an effective weapon against the organized employe. If negotiations stalemate and the employe withholds his services, then the employer can stay closed until agreement is reached, (if he can survive economically) or he can exercise the ultimate option of going out of business.

But in the public realm — such as with the Dayton firemen or the Detroit nurses — the employe still has the option of striking, but the management has no corresponding option. Government cannot go out of business.

In the extreme, all the public employe on strike must do is wait; at some point, government-management will capitulate. It has no choice but eventually to give in to organized union activity. In Dayton, it took three days. In Detroit, it took a single shift of sick-out.

The same is true of teacher strikes, or police walk-outs, or sanitation workers, or in any other public employment area. All the advantages are on the side of the striker.

One thing to remember is when a fireman or a nurse or a teacher or policeman or other public employe goes on strike, the strike really is not against the city or the hospital or the school district. The strike really is against the public. It's not the city manager who suffers in Dayton; it's Mrs. Grether, whose building burned down. It's not the school superintendent who is victimized in a teacher strike; it's the student and the parent. It's not the chief of police who is harmed by a policeman's work stoppage; it's the victim of crime.

About the only equalizer on the side of government-management-citizen is the social conscience of the striking worker ... and you'll have to pardon those who don't place too much confidence there once the situation gets to the walkout stage.

In Dayton, for example, striking firemen did indeed check out fires to make sure no human life was endangered. But in cases like Mrs. Grether's apartment building, once the safety of occupants was assured, the roving fireman's response was: "Let her burn."

Donna Radtke became the bride of Randy Sajdak on July 23, 1977, at St. Mary's Cathedral, Gaylord. Monsignor Francis Kaminski celebrated the Catholic Mass at 1 o'clock in the afternoon. The double-ring ceremony was witnessed by about 150 guests.

Marcia Smith of Gaylord sang the "Wedding Song" and "Love Song" from "West Side Story." The flowers decorating the altar were yellow and white carnations. Following the ceremony the bride and groom's mothers each received a yellow long-stemmed rose.

Donna is the daughter of Mr. and Mrs. Charles H. Radtke of Gaylord and Randy is the son of Mr. and Mrs. Clement Sajdak of Frederic.

Given in marriage by her father, the bride wore a dress of jersey crepe with an empire waist and cap sleeves and trimmed in daisy lace. It was fashioned with a keyhole lace bodice and a lace stand-up collar. The headpiece was a Juliet cap with a fingertip veil trimmed in matching daisy lace.

Her bouquet was yellow sweetheart roses with white carnations. With it she wore opal earrings given to her by the groom.

Maid of honor was Gail Fitch of Miami, Fla., and bridesmaids were Lori Tyzy, of Gaylord and Lola Radtke, sister-in-law of the bride, of Mancelona, and Marie McIsaac of Grayling. They wore dresses of aqua jersey crepe trimmed with off-white lace fashioned with an empire waist, a V-neck, and cap sleeves. They carried single long-stemmed yellow roses with matching ribbon.

Pat McIsaac served as best man and the groomsmen were Bob Terry, Doug Sajdak, brother of the groom, and John Rasmussen all of Grayling. Serving as ushers were Scott Radtke, brother of the bride, of Mancelona, and Tom Mahaney of Grayling.

A wedding dinner and reception was held at the Knights of Columbus Hall in Gaylord for about 325 guests.

For their wedding trip, the young couple spent a week camping at Pike Lake in the Upper Peninsula. They are now residing on the AuSable River in Frederic.

For her daughter's wedding, Mrs. Radtke chose a floor-length dress of dusty rose styled with an empire waist and cape sleeves. Her corsage was

pink roses with white carnations.

Mrs. Sajdak wore a floor-length aqua dress with a floral design. It was styled with a square neck and sleeveless. Her corsage was yellow roses with white carnations.

The bride graduated from Gaylord High School in 1973 and from St. Luke's Nursing School in 1975. She is employed at the Keyport Clinic, Grayling.

The groom graduated from Grayling High School in 1974 and is now employed at Camp Grayling. He will be entering the National Guard in the fall.

Out-of-town guests were from Japan, Florida, Massachusetts, Detroit area, Flushing, Essexville, Mancelona, Kalkaska, Paradise, Marquette, and Long Island, N. Y.

Photographs were taken by Peggy Ross, friend of the bride.

## Don't Burn Those Wasps

by Willard Bosserman  
County Ext. Dir.

This seems to be the time of year that people are bothered by wasps, hornets, and yellow jackets. Perhaps it's because they have been building their nests all summer and they are beginning to be noticeable.

They can be a nuisance and some people are allergic to their stings. The stings are uncomfortable to everyone, therefore when people see their nests around the house they want to get rid of them. Don't burn them. You may burn more than you bargained for. Use insecticides.

There are several groups of wasps, commonly identified as hornets, yellow jackets, mud daubers, and polistes. Each of these groups can be identified by the nests they build.

### HORNETS

Hornets build grey paper-like nests, often larger than footballs. These may be located in trees or shrubbery or attached to buildings.

Control: If a nest is located where it will be a nuisance, it may be controlled by spraying with one of the aerosol sprays specially designed for wasps and hornets. Spray the nest in the evening when the wasps are home and direct the spray particularly at the flight hole in the lower part of the nest. Repeat the next evening if some survived. It might be wise to wear a long sleeve shirt and long pants.

### YELLOW JACKETS

Yellow jackets are smaller than the common hornets and have rather definite black and yellowish bands on the abdomen. They build annual nests of paper which are much smaller than those made by hornets and are usually built in the ground. Control: spray the yellow jackets nests above ground with the same materials mentioned for hornets. If the nest is below ground, the aerosol may be directed down the hole in the evening. Cover the hole to hold fumes and wasps after treatment.

### POLISTES WASPS

Polistes wasps build grey paper-like nests with exposed cells facing down, that look like honeycombs. The nests are often found under the eaves or other parts of houses, protected by overhang, or in attics. Control: (1) knock down nests found under the eaves or elsewhere around the house. If done every year throughout the summer, this will lower the local population. (2) The aerosol spray may be used to knock down the wasps when found dancing up and down the walls of the house in the fall of the year.

If any numbers are found in the attic during the winter, the "Wasp, Hornet" aerosol spray may again be used.

## Cary-Theaker Exchange Vows

Dawn Leigh Cary exchanged wedding vows with Dennis Leland Theaker on August 6, 1977, at 2 o'clock in the afternoon at the Free Methodist Church, Grayling. Rev. Glen Frye officiated at the double ring ceremony. Jan Olson sang the "Wedding Song" and "As Sure As I'm Standing Here," 2:00 p.m.

panied by Linda Townsend on the piano.

The bride is the daughter of Mr. and Mrs. Dwight P. Cary of Grayling and the groom is the son of Mr. and Mrs. Alfred W. Theaker of Grayling.

Large arrangements of pink, blue and candlelight carnations with tinted blue decorated the altar and it was flanked by huge Boston ferns and candelabras.

The bride, who was given in marriage by her father, wore a candlelight polyester jersey knit with a full circular skirt and chapel length train. Venice lace embellished her high-necked sheer bodice and the floor length veil and mantilla. She carried a bouquet of pink rose buds and blue and candlelight carnations.

Maid of honor was Ann Cary, sister of the bride, who wore a pink and blue flowered dress with flowing bodice and cape with matching hat. Bridesmaids were Diane Stephan of Grayling who wore a blue dress with flowing bodice and cape with matching hat, and Sue Mayne of Ann Arbor who wore a pink dress both identical to the maid of honor. All the attendants carried pink roses and baby's breath.

Serving his brother as best man was Merton Theaker of Grayling, Norman Theaker, another brother of Grayling, and John Shear, of Clark Lake, were groomsmen. Ushers were Karl Sturm of Coffeyville, Kansas, and Brian Cottrell, of Vanderbilt.

For her daughter's wedding, Mrs. Cary wore a floor length melon chiffon over taffeta gown with an empire waist. It was fashioned with an open back bodice laced with matching straps. The front fell in beautiful folds from a belted waist of pearls and sequins.

A reception was held at the Church Fellowship Hall following the ceremony.

For their wedding trip, they went to Mackinaw City, Petoskey and Tahquamenon Falls. The young couple will be at home at 519 Northwest CMU, Mt. Pleasant, MI.

The bride graduated from Grayling High School in 1976 and is attending Central Michigan University and the groom graduated from Grayling High School in 1974 and is also attending Central Michigan University.

Out-of-town guests were from Clawson, Vanderbilt, Ann Arbor, Clark Lake, Dearborn, Wolverine, Bay City, Gaylord and Boyne City, Michigan, and Coffeyville, Kansas, Wichita, Kansas and Chicago, Illinois.

## Attend the Church of Your Choice

### BUILD BEFORE YOU FLY

We know an airline pilot who used to make model planes. Yes, and we know a doctor who was "first aid man" in his scout troop. And we know an engineer who used to build the best bridges ever built with damp sand at the seashore.

There isn't any important role in life that doesn't have to be rehearsed before the curtain goes up!

Now in every field there are men and women whose Christian character is admired, respected and relied upon by all who know them. You can be sure they didn't suddenly wake up one morning with that kind of personal "nobility." Where then did it come from? How did they acquire it?

Through experience — just as the engineer, the doctor and the pilot acquired their "feeling" for the vocation they would one day pursue!

The church at the corner can't manufacture noble Christian souls. But it can go a long way toward developing in you and me — and in our youngsters — a sense of the potential with which God has endowed us.
